DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Session 2025 – 26

Forum Re-Installation Ceremony (16th October 2025)

Art is an essential element of education, just like reading and writing. Showcasing our hidden skills on an innovative platform to enhance our personality is the key that unlocks profound human understanding and accomplishments.

Keeping this in mind and following the legacy, the Department of Computer Science and Engineering (CSE) and the Department of Artificial Intelligence (AI) of Priyadarshini Bhagwati College of Engineering successfully organized the B!T-C Forum Re-Installation Ceremony for the academic session 2025-26.

“**B!T-C**” stands for “**Bonzer in Technology – Beyond the Clouds**” symbolizing the vision of students to rise beyond limits through technology, creativity, and teamwork.

The event was held on 16th October 2025 at 11:00 AM in the B-Building Auditorium. It was inaugurated with the lighting of the lamp of knowledge and wisdom by respected dignitaries, followed by Saraswati Vandana. The ceremony was graced by the presence of **Dr. A. M. Shende**, Principal of PBCOE, who addressed the gathering with inspiring words and motivated students to continue striving for excellence. The event was conducted under the guidance of Prof. S. S. Bawankule (HOD, CSE), Prof. B. S. Dhak (HOD, AI), Prof. P. V. Rathod (Forum In-charge, CSE), and Prof. A. R. Deokate (Forum In-charge, AI).

The committee members of the B!T-C forum were announced and honored with badges and post distributions by the dignitaries. During this, all forum members took an oath to perform their duties with honesty and dedication. The newly appointed forum Presidents, Mr. Roshan Gadnayak (CSE) and Mr. Yash Pounikar (AI), Vice President Shravani Khapekar (CSE), Rohini Bhat (AI) along with their respective teams, officially took charge and expressed their commitment to carry forward the legacy of the forum.

The program continued with the opening speech delivered by President Mr. Roshan Gadnayak, who highlighted the vision and mission of B!T-C. He emphasized the importance of teamwork, leadership, and innovation in shaping the technical growth of students. His motivational words encouraged everyone to make the most of this platform for personal and academic development.

During the event, academic toppers, NPTEL achievers, and active participants in co-curricular and extracurricular activities were felicitated with certificates and awards. In continuation of the program, badge and post distribution were carried out for all forum members, assigning them various responsibilities such as event coordination, technical management, media, and creative roles – promoting accountability and teamwork among students.

The ceremony concluded with a vote of Thanks proposed by Vice President Ms. Rohini Bhat, who expressed heartfelt gratitude to the Principal, HODs, faculty members, and all students for their support and contribution in making the event a grand success. The program ended with a joyful photo session capturing the moments of pride and unity.

The E-Poster Competition was also organized on 16th October 2025 as part of the activities conducted by the BIT-C Forum. The event aimed to encourage students to demonstrate their creativity and technical knowledge through digital poster design on various innovative and contemporary themes. It served as an excellent platform for participants to convey meaningful ideas with visual impact and clarity. A large number of students from different departments participated enthusiastically, presenting posters that reflected originality, artistic design, and relevance to the given topics.

The competition was judged by Er. S. Kakade, who evaluated each entry based on creativity, visual appeal, message clarity, and overall presentation. He appreciated the efforts of all participants and shared insightful feedback to enhance their digital designing and communication skills. The event concluded successfully, inspiring students to explore new dimensions of creativity through technology and strengthening their ability to present ideas effectively using digital media.

To welcome the new second-year students, a Fresher's Party was organized at 2:00 PM in the seminar hall. The event included fun games, performances, and a ramp walk where the second-year students introduced themselves and shared their interests. The highlight of the celebration was the crowning of Mr. and Miss Fresher from both CSE and AI departments by the respected dignitaries.

The B!T-C Forum Re-Installation Ceremony 2025-26 concluded with great enthusiasm, teamwork, and joy, marking the beginning of a new chapter of creativity, learning, and unity within the CSE and AI departments. The success of the ceremony, along with the E-Poster Competition and Fresher's Party, truly reflected the dedication, coordination, and collaborative spirit of both students and faculty members. The active involvement of forum members, their disciplined execution of responsibilities, and the energetic participation of students from all years made the event a memorable and inspiring one. It also highlighted the importance of platforms like B!T-C in bridging the gap between academic learning and real-world application, fostering teamwork, confidence, and professional growth among students.

Looking ahead, the B!T-C Forum aims to continue its legacy by organizing a series of technical and cultural events, workshops, and competitions that will enhance students' practical knowledge and creativity. With the collective efforts of the faculty coordinators and the newly appointed forum members, the forum is determined to build an environment that encourages innovation, leadership, and holistic development. The event set a positive tone for the academic year 2025-26, motivating every student to rise "Beyond the Clouds" through dedication, technology, and the spirit of excellence.
